

first end and the second end of the leg, so that a fluid conduit enabling fluid communication to and from the pot body at the first end and being capable of absorbing fluid into the leg at the second end.

20. The plant pot of claim 8, wherein the at least one leg includes more than two legs.

21. (amended) The plant pot of claim 8, wherein the pot sits in a tray, between the side walls of the pot body and the up edge of the side walls of the tray having a clearance/distance to allow air flow in and out of the tray and ventilate under the pot body thoroughly, and may adding fluid to the tray through the opening area between the side walls of the pot body and the up edge of the side walls of the tray.

### In the Claims

8. (Amended) A plant pot apparatus, comprising:

a pot body, the pot body having side walls and a bottom wall; and

at least one leg build into the pot body at a first end; and

a plurality of air ( circulation ) vents disposed on the bottom wall of the pot body; and

the pot body and at least one leg being filled a fluid absorbing material; and

the at least one leg having side walls and a bottom wall at a second end,

at least one hole disposed on the bottom wall of the leg, the fluid conduit is between the

first end and the second end of the leg, so that a fluid conduit enabling fluid

communication to and from the pot body at the first end and being capable of absorbing

fluid into the leg at the second end. ( and the fluid absorbing material can not drop out

from the second end of the at least one leg. )

20. The plant pot of claim 8, wherein the at least one leg includes more than two legs.

21. (amended) The plant pot of claim 8, wherein the pot sits in a tray, between the side walls of the pot body and the up ( side ) edge of the side walls of the tray having a clearance/distance to allow air flow in and out of the tray and ventilate under the pot body thoroughly, and may adding fluid to the tray through the opening area between the side walls of the pot body and the up edge of the side walls of the tray.
